

Visioning

The Next Step to Living a Purposeful Life

Along our path in this life there are phases that we pass through and tools that we learn to make our lives more effective, fulfilling and purposeful. In this evolving process it is natural to learn **goal-setting** simply to retrain yourself that you can choose what you draw into your life. This is one of the primary and most empowering steps anyone who desires to live a more fulfilling life can take. **Evolute™** teaches this in several classes.

We now have a new level of goal-setting that is cutting edge. It is sweeping across many training systems and non-profit organizations and is bringing with it **new paradigms** of doing business and handling personal lives. This is called **Visioning**.

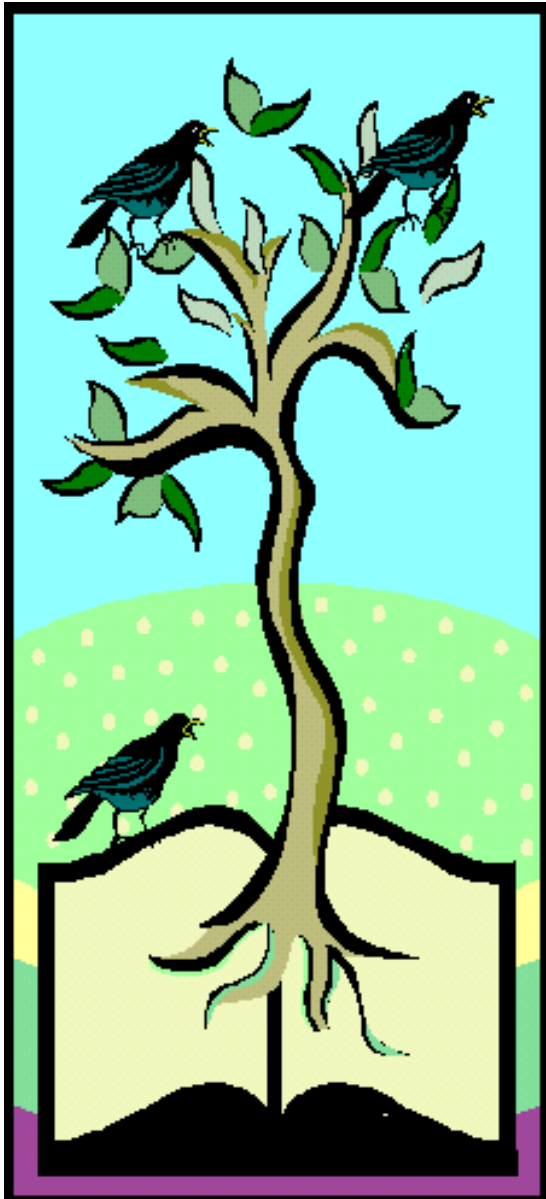

What is Visioning? **Visioning** is a process where you tune into your Greatest Expression and listen to and catch ideas, focus, specifics, generalities, people and more concerning any particular project, group mission or life focus. This means that you see how to use your talents and gifts, both known and unknown. You see how you and others integrate for the Highest Good.

What can I expect from this class? The **Visioning** class will cover:

- 1) How to Vision.
- 2) How to train your mind to actually receive the Vision.
- 3) Deal with the most crucial key that will also change how you relate in other areas of your life.
- 4) Practice, practice, practice.

What will happen when I sign up? You will receive a packet that includes an article from a modern-day mystic who is largely responsible for beginning the **Visioning** revolution. You will also receive some 'focusing' material to fill out and bring with you.

Lamar Irwin is founder of Evolute™, Raven Tree Gathering Place and PC and Web Services.com. His unique range from Business Application to Spiritual Perception allows for a proactive approach to implement theory, thus being a catalyst for changing lives. Lamar provides Seminars, a one-of-a-kind Self-Leadership program, Meditations, Private Consultations, Keynotes, Board Retreats and in-house Business Development programs.
